2013-14

In Padmashri Vikhe Patil College, Pravaranagar the Department of Commerce has been established an Intellectual Property Right (IPR) cell on 5th July 2013. Intellectual property (IP) refers to various distinct types of creations of the mind such as inventions, literary and artistic works, symbols, names, images, designs used in Commerce etc; for which a set of exclusive rights like copyrights, trademarks, patents, industrial design rights and trade secrets are recognized under the corresponding fields of law. An Intellectual Property Right (IPR) Cell has been formed in Padmashri Vikhe Patil College in 2013 to create awareness among faculties, research scholar and the students of the college.

Objectives of Intellectual property Rights (IPR) Cell

- To promote awareness about IPR.
- To engage in conduct IP workshops/ seminars.

Importance of IPR

It is necessary to protect the Intellectual property in order to enable organizations to earn recognition or financial benefits. Governments of various countries protect the innovative ideas of the inventors through Intellectual Property Rights (IPR). Recently, IPR became a central issue in the developed and developing countries. The rationale for this IPR lies in the need to create awareness about the importance of IPRs as a marketable financial asset and economical tool among the researchers, faculty and students of the college.
